Water Main Work Causes Traffic Restriction on North Fairview

Northbound lane restrictions are in place for traffic on Fairview Ave., between Thurber and Simmons Streets, just north of Prince Rd.

Work on a 16" water main break is taking place in the area. Water service to customers is not affected.

Lane restrictions will be in place from November 12 to November 20. Motorists should be prepared for traffic delays and plan accordingly. If driving in the vicinity, please exercise additional caution to help ensure the safety of the workers.
