Updated: River Road and Hacienda del Sol Water Main Repairs Result in Traffic Restrictions

(0800 hours) Tucson Water crews are conducting repairs to a 12” water main on River Road near Hacienda del Sol. As a result of the repair work, westbound traffic on River Road is restricted to one lane from north Country Club Road to Hacienda del Sol. The eastbound and westbound left turn lanes on River Road onto northbound and southbound Hacienda del Sol are also closed to traffic.

Eastbound River Road traffic is also restricted to one lane at River Road and Hacienda del Sol. The additional lane closure was required to ensure safe working conditions for Tucson Water crews working to repair the water main.

A fitting on a 12” water line separated, resulting in the water main leak. Only two residences are out of water as a result of the water line failure. Work to repair the water main is expected to take most of the day. Traffic restrictions will be in place until the repairs are completed.

Motorists are asked to exercise caution while driving on River Road, between Hacienda del Sol and north Country Club Road, while crews work to repair the water line.
