

HEY KIDS!
CHECK OUT WHAT'S HOT
ON MY SUMMERTIME MENU.
PETE'S PLACE IS COMMITTED
TO CONSERVING DESERT
RESOURCES.

Here in the Sonoran Desert
water is in low supply. Water
demands increase every day.

People use water for bathing,
watering plants, washing dishes
and for swimming. Water is very
important to all of us.

Desert plants and animals live
well in this dry environment by
using less water or by storing
water for the future. People can
also live well by using water
wisely and conserving water for
the future.

Join me this summer in serving
up water conservation!

Chef Pete
Bon Appetit!

SUMMERTIME SPECIAL WATER CONSERVATION
