

Thanks for your help kids, we couldn't have done it without YOU!

That was COOL! We found the Dribbler's hangouts!

Yeah, and we used our hydro vision to find places the Dribbler has been!

But especially, we learned ways to deal with the Dribbler!

Anyone can have super hydro vision, you just need to know where to look!

It's a never ending mission. We always need to be on the look-out for the Dribbler. Keep using your hydro vision to look for signs of the Dribbler. And...KEEP CONSERVING WATER!

We can all be super heroes when it comes to conserving water!
