## Conservation Idol Song Lyrics

### *Save the Rain (Country)*

Livin' with the desert  
She's so beautiful but mean  
But I know the secret  
How to keep my landscape green!  
I save the rain, I save the rain

### *Losing My Leaks (Jazz)*

Water is so precious  
In this drought we face.  
Put a new washer in the faucet  
And a flapper in the john  
And those leaks are gone!

### *Usin' It Over Again (Rock)*

Take the clothes out of the washer.  
The water there is free!  
I'll use it on my landscape  
And keep it green for me.
