CLICK 2 SAVE

Color the picture and check off each water-saving change on the list.

- Desert landscape plants
- Water spigot in good repair
- Sidewalks (cleaning without water)
- Gray water use (from washer to plants)
- Shower (short showers use less water than baths)
- Washing dishes with tap off
- Drip irrigation
- Water harvesting channel directs rainwater from roof
- Tap off while brushing teeth
- Water-harvesting cisterns (stores rainwater from roof)
- Tree wells (keep water where it's needed)

Help the raindrop get from the rain storm, down into the ground, up the well, and into the bath tub. Begin drawing a line at "START HERE". Watch out for dead ends!

In Tucson water seeps slowly through the ground into the aquifer. Later, this water is pumped up from wells and flows through pipes into your home. This water is called groundwater because it comes from underground.
