

TUCSON WATER  
STANDARD SPECIFICATION AND DETAILS  
PREFACE

The Tucson Water Standard Specifications and Details manual represents a multiple year effort by Tucson Water staff to revise the manual to reflect the elimination of typing errors, update technical data, add new materials and acknowledge new water system infrastructure construction methods.

While every effort has been made to eliminate spelling, contradictions, and other errors, it is acknowledged that with the publication of these Specifications and Details some errors and omissions may have been overlooked. Further revisions will provide for correction and updating as may be necessary after use by the construction community. It is anticipated that a yearly review of the present edition of the Standard Specifications and Details will be conducted. Users of these documents are requested to send any noted errors or omissions, as well as comments and suggestions, for clarification or amendment of the Standard Specifications and Details to the following address or email address:

Tucson Water Specification Committee  
c/o J.B. Celey III  
Tucson Water  
P.O. Box 27210  
Tucson, Arizona 85726-7210  
JB.Celey@tucsonaz.gov

Tucson Water maintains a mailing list of specification holders. Announcements of the availability of updates/revisions will be mailed or emailed to those on the list.

Tucson Water is also pleased to announce that the 2011 Edition is available online as a read-only document. The link for this can be found through the Tucson Water website at [www.tucsonaz.gov/water/spec-book](http://www.tucsonaz.gov/water/spec-book). All or any part of the book may be downloaded in Adobe file format.

The committee would like to thank all individuals, contractors, and suppliers who have participated in this process.
