Exploring the Wonders of Water

**A FREE Interactive
Educational Exhibit
For Grades K-8**

What is Exploring the Wonders of Water?

This travelling exhibit educates elementary through middle school-age students about the role of water in the Sonoran Desert. The exhibit offers **student-ready, interactive, multi-disciplinary** and **concept-based** water education.

What Topics Are Covered?

- Water in the desert
- Hydrologic cycle
- Tucson's water sources
- Wastewater recycling
- Water uses
- Water conservation
- An independent Water

History Exhibit focuses on the cultures that have influenced southern Arizona and the pivotal role water played in their lives

What Materials Does the Exhibit Include?

The exhibit is displayed on large panels and includes:

- Photographs
- Diagrams
- Maps
- Puzzles
- Q & A
- Saguaro display
- Historic objects
- Mystery object touch boxes

Who Can Use the Exhibit?

The exhibit is designed to supplement classroom instruction in Science, Math, English and Social Studies. Informational and classroom resources are included and additional resources such as groundwater flow model demonstrations and books can be requested from Tucson Water or the Water Resources Research Center.

How Do I Get "Exploring the Wonders of Water" Displayed At My School?

- Tucson Water transports the exhibit to and from exhibition sites (generally a school library or other supervised indoor room), sets up and dismantles the exhibit and familiarizes teachers and media specialists with the materials and activities available. There is no cost.
- To host "Exploring the Wonders of Water" education exhibit at your school, or for more information on other water education programs, contact:
