

# ***WATER PLAN: 2000-2050***

2008 Update

## **TABLE OF CONTENTS**

	<b>Page</b>
<b>Section One: Introduction</b>	<b>1-1</b>
<b>Section Two: Projections of Population</b>	<b>2-1</b>
Long-Range Planning Area Revisited	2-1
Population Counts and Projections	2-3
<b>Section Three: Projected Water Demand</b>	<b>3-1</b>
Per Capita Water Usage Rates	3-1
Projections of Total Water Demand	3-1
Managing Demand	3-4
<b>Section Four: Available Water Resources</b>	<b>4-1</b>
Ground Water	4-1
Effluent	4-3
Colorado River Water	4-4
Assured Water Supply Program	4-9
<b>Section Five: Water Delivery Systems</b>	<b>5-1</b>
Existing Potable Systems	5-1
Existing Reclaimed Water System	5-3
Identifying Potable and Reclaimed System Needs	5-4
<b>Section Six: Utilizing Resources to Meet Demand</b>	<b>6-1</b>
Common Elements	6-1
Decision Points	6-3
Projected Demand and Resources	6-5
What Lies Ahead	6-10
<b>Section Seven: Conclusions</b>	<b>7-1</b>
Updated Recommendations	7-1
More on Regional Cooperation	7-2
Reassessing the Future	7-3
<b>References</b>	<b>8-1</b>

**List of Tables**

4-1.	Local Effluent Entitlements in 2006	4-3
------	-------------------------------------	-----

**List of Figures**

2-1.	Tucson Water's Long-Range Planning Boundary, Current Service Area, and Obligated Areas Currently Not Served	2-2
2-2.	Tucson Water's Long-Range Planning Boundary and Potential Projected Service Area	2-2
2-3.	Population Projections for Tucson Water's Obligated Area and its Potential Service Area	2-4
3-1.	The Four Demand Scenarios and Associated Planning Assumptions	3-2
3-2.	Projected Demand Scenarios: 2000-2050	3-3
4-1.	Aerial View of CAVSARP Taken January 2008	4-5
5-1.	Tucson Water's Well Fields in 2006	5-2
5-2.	Tucson Water's Potable Distribution System in 2006	5-2
5-3.	Tucson Water's Reclaimed Distribution Pipeline System in 2006	5-3
6-1.	Scenario A, Projected Demand and Water Resource Utilization: 2000-2050	6-7
6-2.	Scenarios B & C, Projected Demand and Water Resource Utilization: 2000-2050	6-8
6-3.	Scenario D, Projected Demand and Water Resource Utilization: 2000-2050	6-9
6-4.	Demand-Resource Scenario Summary	6-12

**Appendices**

A.	Conservation Measures Recommended by the Community Conservation Task Force	A-1
B.	City of Tucson Water Department Drought Preparedness and Response Plan	B-1
C.	Effluent Generation Projection Memorandum	C-1
D.	A Primer on the Colorado River and the Potential for Shortage	D-1
E.	Engaging the Community	E-1
